Business Resilience Adaptive Capacity Indicator – “Leadership”

ThinkGRC

Resilience Indicator Overview

Resilience Indicators

Based on prior organizational resilience research, three overarching categories emerged:

- Leadership & Culture
- Change Ready
- Networks

On the following slides, each category is presented along with the underlying resilience indicators which make up that category.

Business Resilience Indicator - Leadership

This business resilience indicator measures the degree in which strong crisis leadership to provide good management and decision making during times of crisis, as well as continuous evaluation of strategies and work programs against organizational goals, is in place.

The questions which ThinkGRC asks businesses to quantify the *Leadership* business resilience indicator are as follows:

To what extent do you agree or disagree with the following statements for your organization?
Strongly Agree, Agree, Disagree, Strongly Disagree, Don't Know

Staff are confident that management would provide good leadership if our organization was struck by a crisis

In a crisis, staff accept that management may need to make some decisions with little consultation

Business Resilience Indicator - Leadership

To what extent do you agree or disagree with the following statements for your organization?
Strongly Agree, Agree, Disagree, Strongly Disagree, Don't Know

Our managers monitor staff workloads and reduce them when they become excessive

Our management think and act strategically to ensure that we are always ahead of the curve

Management in our organization lead by example

Our organization regularly re-evaluates what it is we are trying to achieve
