Business Resilience Planning Indicator – “Stress Testing Plans”

ThinkGRC

Resilience Indicator Overview

Resilience Indicators

Based on prior organizational resilience research, three overarching categories emerged:

- Leadership & Culture
- Change Ready
- Networks

On the following slides, each category is presented along with the underlying resilience indicators which make up that category.

Business Resilience Indicator – Stress Testing Plans

This business resilience indicator measures the degree in which there is participation of staff in simulations or scenarios designed to practice response arrangements and validate plans.

The questions which ThinkGRC asks businesses to quantify the *Stress Testing Plans* business resilience indicator are as follows:

How regularly does your organization rehearse and test its plans?

N/A, Twice a year, Annually, Every 2nd year, Hardly ever

Answer for each of the following plans:

- *Business Continuity Plan*
- *Emergency Plan*
- *Crisis Plan*
- *Other type of Plan*

Business Resilience Indicator – Stress Testing Plans

To what extent do you agree or disagree with the following statements for your organization?
Strongly Agree, Agree, Disagree, Strongly Disagree, Don't Know

We believe emergency plans must be practiced and tested to be effective

Staff can take time from their day to day roles to practice how to respond in a crisis

Business Resilience Indicator – Stress Testing Plans

To what extent do you agree or disagree with the following statements for your organization?
Strongly Agree, Agree, Disagree, Strongly Disagree, Don't Know

Our organization has done sufficient planning for how disruption to the following infrastructure might affect us:

- *Communications*
- *Information Technology*
- *Electricity*
- *Gas*
- *Transport Networks*
- *Water*
